

Pool Closure and Inclement Weather:

Circle C Swim Center may suspend activity or close, based on unsafe weather conditions or situations, or when weather conditions hinder attendance. Manager will re-open pool when safe to do so. Closure is at the discretion of the Manager for the following reasons, but not limited to:

1. In the event of thunder or lightning, pool will be evacuated and remain empty for at least 30 minutes after last occurrence. Guests must exit water and take cover under a man made structure until Management deems it safe to re-open.

2. Pool will be evacuated if any swimmer is suspected of sustaining a head or spinal injury or during any life threatening emergency.

3. Pool will be evacuated and may close if fecal matter is found or suspected in water.

*The pool will be closed for a minimum of 45 minutes and under certain circumstance closed for 4-6 hours

4. Pool will be evacuated and may close if Staff is unable to clearly see the bottom of the pool (i.e. hard rain, high winds, fog, turbid water conditions).

5. Pool may close under the following bad weather conditions, and on the low likelihood of resident swimmers:

* If the temperature or wind chill, whether actual or forecasted is at or below 32° F. or ice is present.

* If the high temperature or wind chill, whether actual or forecasted is at or below 40° F.

* If the water temperature of the competition pool falls below 70° F. In the case that water temperature falls below 78° but above 70° F. swimmers will be restricted to no more than 20 minutes in and no less than 20 minutes out, unless they have a wet suit.

* If the water temperature of the wading pool falls below 78° F.

6. For any reason not named above, deemed unsafe for use as determined by Management. During inclement weather (i.e. lightning, severe storms, high winds, hard rain, fog, cold temperatures, etc.) Management will make an educated decision about temporary or complete closure. In the event of lightning/thunder the pool will close for at least 30 min's after a visual lightning strike and/or audible thunder at or within 6 mile radius, according to National Weather Service standards. Guests must exit pool and take cover under a man made structure until Management deems it safe to re-open
